

Additional Information about Festive Farm Products

All of our greens are locally sourced in Ontario, and products are made at our farm in Bothwell Ontario, where we have been crafting our festive items since 2007.

Items will be delivered to your group at a prearranged date, and time.

The stars, both natural and white are 24" across, and high. They easily fit on most doors, and will have festive greens attached.

The table centrepieces are approximately 12" by 12", and will be delivered in a box for easy transport.

The small urns are approximately 3 ft high, and 2 ft wide. The medium urns are 3-4 ft high, and 3 ft wide.

The small sleigh is approximately 27" high, and 12" wide. It could be hung on a door, or displayed on a porch. The large sleigh is approximately 4 ft high, and 20" wide. Both sleighs come adorned with greenery.

The wreaths are quite full with mixed greens. The small wreath is approximately 12"; the large wreath is approximately 24".

The bunch of mixed greens is intended for you to make your own festive urn. It will contain mixed greens of various lengths, as well as red dogwood branches, and painted white branches, you will need to add your own decorative elements. There should be sufficient greens for one 10" pot, the equivalent of our small urn.

All items contain fresh cut greens, which should be displayed/stored outside to keep them looking fresh. We recommend the table centrepiece be kept outside, or in your fridge when not on display.
